Senior Category Buyer Technical Textiles EMEA

Mitsubishi Chemical Group Corporation is one of the leading providers of innovative chemical-based solutions. We focus on materials and products that create value and enrich everyday life. With our leading expertise in materials science, we shape industries such as mobility, digital, consumer goods and medical technology. We achieve this together with a global team of over 70,000 dedicated employees. Our slogan "Science. Value. Life." brings it on point.

This Position could be based in Lenzburg (Switzerland), Lotte (Germany) or Nitra (Slovakia).

What makes this position special?

The Senior Category Buyer Technical Textiles is responsible for the regional spend and strategy of our glass, carbon and synthetic fibers and related textiles business unit. The aim of the role is to create a fit-for-purpose sourcing portfolio to enable the most reliable and cost-effective sourcing at a regional level.

Your tasks?

- Developing and following procurement strategies that are innovative and cost-effective for glass- carbon fibres, staple fibers, fabrics, fleeces and other related textiles for the EMEA region.
- Accountable for the effective sourcing and engagement of reliable vendors. That includes negotiating and contracting of price agreements with the main vendors.
- You will work closely with quality department, Operations, Sales and R&D to align on the regional product and supplier strategy.
- You will ensure compliance with procurement processes in the EMEA region while driving innovative approaches to increase the effectiveness and efficiency of transactional activities.
- You will coordinate collaboration between the category team and the broader EMEA and global sourcing organization, including the Centre of Excellence.
- You will conduct market analysis based on the business unit's product management specifications and feedback from the production sites.

Your profile?

- A basic commercial or technical education, or an academic degree in a related field (e.g. supply chain management, textile engineering or chemistry)
- Professional experience in procurement in an international environment, preferably in the composite, automotive or similar industry
- Advanced knowledge of MS Office, spend analysis tools, e-sourcing platforms, experience in project management and presentations
- Experience in leading negotiation meetings / contract negotiations
- You are a customer and solution-oriented personality with very good communication skills in English and local language
- A willingness to travel approx. 10 % within EMEA

What can you expect?

Our corporate culture is based on the values of integrity, respect, courage, perseverance and collaboration - we call it "Our Way". With this special approach, we are shaping a sustainable and progressive world together.

We offer you a secure job in a pleasant and collegial atmosphere with responsible and exciting tasks in an international environment.

You will also benefit from attractive remuneration and extensive social benefits, such as bonuses, a company pension scheme, health offers, employee discounts and much more.

We believe that success is based on people with different values, views and skills working together. We strive to align people and planet with our values to create a natural, balanced and diverse environment - a concept we call KAITEKI.

Have we piqued your interest? Then become part of our team and contribute your talents. You can apply via our career portal.
